

## USB-17 Cable with PLX QD Datasheet

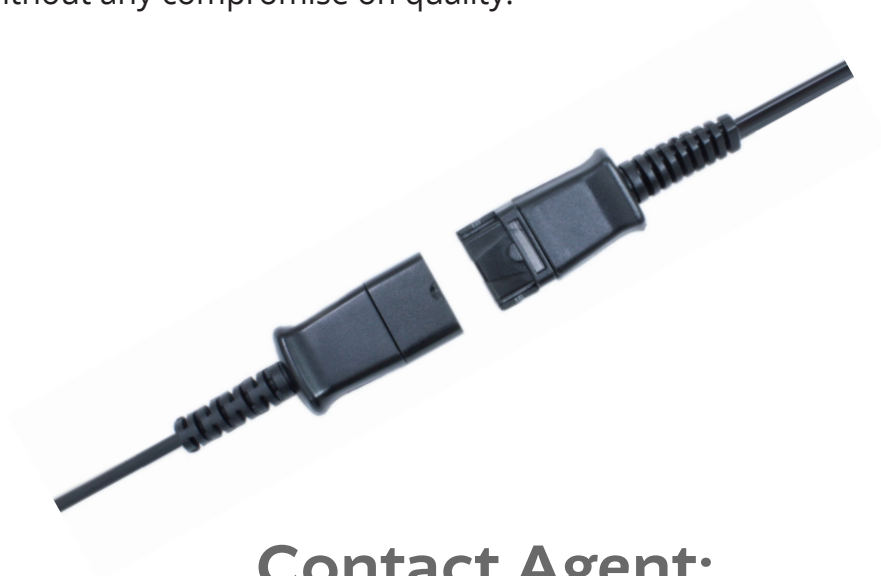

## QD to USB bottom cable with volume & mute

The Agent USB-17 allows you to connect any headset with a PLX-style QD to a USB port. The in-line control box allows the user to mute, adjust the volume and accept/end calls without touching the computer.

### The PLX QD

Agent offer our range of headsets and cables with a Quick Disconnect variant compatible with Plantronics connections. Our PLX-QD variants offer a fully-featured alternative to high-priced branded cables without any compromise on quality.
