

Noise-cancelling headset for USB and 3.5mm

Connects to: 

Agent AU-50

Agent AU-60

In-Line Call Controls

Call answer & end*
Volume control
Mute control

3.5mm connection

The Agent AU-50 and AU-60 series are noise-cancelling headsets with USB for Unified Communications and a 3.5mm connection for mobile devices. The busylight allows colleagues to see when the user is on a call, making it easier to reduce accidental interruptions. Designed to be used both in the office and on-the-go, their tough, lightweight construction allows them to be worn comfortably throughout the day.

*available on specific systems only

Features		Benefits
