

## EVOLVE2 RANGE

It's not just new in every way.  
**It's the new standard.**

We spend 20% more time collaborating than we did six years ago, but available concentration time has shrunk by 10%.<sup>1</sup> It's time for a better way of doing things; enter Evolve2. We've re-engineered our world-leading Evolve Series<sup>2</sup> in every single way, allowing us to bring you significant performance enhancements across the board. These are professional headsets, but not as you know them. Welcome to the new standard.

### A new standard of noise isolation

A range of headsets designed to cancel 54% more of the noise around you from the moment you put them on<sup>3</sup>, thanks to a superior acoustic design and enhanced memory foam padding, with incredible Active Noise Cancellation (ANC)<sup>4</sup> for an added concentration boost.

### Guard your concentration zone with an improved busylight

Our new and improved busylight is now more visible than ever, allowing you to be seen from every angle, for even fewer interruptions. So you can work in peace.

### Raising the bar for professional calls

We took the incredible call performance of our world-leading Evolve Series and made it even better, featuring an advanced digital chipset with three times more computational power and the latest signal processing technology, for 97% less background conversation noise on your calls<sup>3</sup>.

### Teams-certified means teams are satisfied

When communication is easy, everyone is happy, with both Microsoft Teams and their headset. Each Evolve2 headset is Teams-certified with a dedicated Teams button, for truly seamless collaboration.

### Amazing audio across the board

A range of professional headsets featuring powerful leak-tolerant 40mm speakers, along with our advanced digital chipset and the latest AAC codec<sup>4</sup>, for a richer audio experience and incredible call performance.

### Comfort you can wear and wear

Designed using biometric measurements from hundreds of heads, for the ultimate all-day comfort, and finished using durable, premium materials. Comfort so good, you'll barely even feel it.

### Future-proof tech that gets better with age

Upgradeable platform that will add even more value to your investment with future firmware updates through Jabra Xpress.
